SWP004 – Dust Control			
Issue:	1	Date:	26/01/2016
Written/Revised By:	David Alcock	Approved By:	David Astley

1. Purpose

1.1 To ensure a nuisance is not created by the air bound particles (Dust).

2. Responsibility

2.1. It is the responsibility of the site manager to ensure this procedure is implemented & followed.

3. Dust Control Measures

3.1 All site personnel to be vigilant; check for dust arising from the following:

- Dust on yard surface.
- Stockpiles of waste, soils, screenings and hardcore.
- Sorting and loading operations.
- Incoming / departing dusty loads
- Or any other activities on site

3.2 In the event of dust being considered a problem on site the following actions are to be instigated:

- Dust on surface of yard – sweeper to be used.
- Stockpiles of soils and hardcore – use water hose to dampen down.
- Incoming / departing dusty loads – ensure loads are sheeted and / or tipped in an enclosed area.
- Under conditions of high wind, the use of tarpaulins, weighted down and placed on top of wastes to reduce the possibility of dust.
- Any other appropriate action

4. Reporting & Records

4.1 Incidents of dust arising to be noted in the site diary and incident log book.

4.2 Any incident or breach of this procedure must be reported immediately to a manager.
