SWP011 – Odour Control			
Issue:	1	Date:	26/01/2016
Written/Revised By:	David Alcock	Approved By:	David Astley

1. Purpose

1.1 To ensure a nuisance is not created by the release of odour (Smell).

2. Responsibility

2.1. It is the responsibility of the site manager to ensure this procedure is implemented & followed.

3. Odour Control Measures

3.1 In the event of odour becoming a problem, site personnel to inform the site manager as soon as possible.

3.2 The source of the odour to be determined by the Waste Transfer Station operative which is highly likely to be waste derived.

3.3 The offending waste will be containerised and removed to a suitably licensed facility as soon as possible, deodorant product such as disinfectant shall be used if necessary.

3.4 The risk of odour problems can be reduced significantly by ensuring smooth and quick turnaround of wastes stored on site.

3.5 Under no circumstances should wastes with a known odour problem be brought on site. They must at all times go straight for final disposal.

4. Reporting & Records

4.1 Incidents of odour occurring to be noted in the site diary and incident log book.

4.2 Any incident or breach of this procedure must be reported immediately to the site manager.
