PROPOSAL SCHEME

The existing front porch shown dotted on plan and elevation is to be carefully removed.

A replacement extension is to be formed across the front elevation of the property to extend the lounge and to create a small study and to create an entrance hall.

The extension is to be formed in materials to match the existing property and is designed to respect the neighbouring property by being restricted in depth to come no further forward than a 45 degree line taken from the centre of the adjacent property window.
