Regarding the planning application at 15 Oakdene Close, Blythe Bridge, Stoke on Trent. I am objecting to the demolition of an existing garage and the building of the separate dwelling on the property. The new building (bungalow) I feel will be to intrusive and to visible from my property as it is considerably larger than the existing garage it replaces and I also feel it will have an effect on the resale value of my property.
I live at 13 Oakedene Close and number 15 sits at a higher elevation so I am also concerned about the ground stability as my garage adjoins number 15 garage at the moment.
A completely separate bungalow on this site is not in keeping with the other properties in the street and would be out of character.
I await your comments
Regards
Mr Mike Johnson
