Submission: Objection
Comments: Out of respect for Mr Podmore we did not complain about the utter chaos of the plant fair but since learning that no effort was made to accommodate traffic on Consall Hall drive feel we must object. Why is it acceptable to churn the verges up, park on the highway and above all block our own driveway but leave their own unsullied? Instead of boasting about 1200 plus visitors any considerate business would take steps to turn away vehicles in the centre of Consall as the council do on busy days rather than creating gridlock further down. Typically no apology has been received and if THEY are noisy on a hot summers evening WE are told to shut OUR windows. We have always tried NOT to spread manure etc when we see they have an event. So much for neighbourliness. A marquee means even greater numbers and noise and they are not managing what they already have.
