

PROPOSAL SCHEME

The site currently accommodates 25 lock up garages which are in a state of disrepair. It is proposed to demolish the garage structures and redevelop the site. It is proposed to construct a terrace of 4 no. Bungalows which are detailed on drawing no. 2016-2194-03.

DEMOLITION

The existing garages to be demolished are shown dotted and cross hatched on plan.

Areas of tarmac to be removed are also dotted but covered in stippled hatch.

PROPOSED ROAD AND ACCESS

The development is to be served by a private drive accessed from the cobbled access road leading into Brough Park.

A 5.0m wide driveway is to be formed which will allow vehicles to pass at the entrance but shall be widened to 6.0m where parking is present.

The driveway and access is to be formed in tarmac to the approval of Staffordshire County Highway department.

6 Parking spaces are to be provided which are to be formed in porous tarmac over a Cellweb TRP Cellular Confinement System driveway system to respect the root protection areas of the tree adjacent the entrance.

Cellweb to be installed as per specification prepared by Geosynthetics Ltd accompanying this application.

SERVICES

The public utility services serving the proposed development shall be sited below the private driveway.

REFUSE STORAGE

3 wheely bins are to be provided to each property which will be housed within a bin store, position to be agreed.

HARD LANDSCAPING

The scheme indicates materials to be utilised for hard landscaping, but generally consists of :-

Road - tarmac with concrete kerbs and edgings.

Parking areas - porous tarmac with timber edgings.

Patios - riven reconstituted paving slabs.

Paths - riven reconstituted paving slabs.

Note :- samples of materials shall be submitted prior to commencement to Local Authority.

BOUNDARY TREATMENTS

The walled boundaries to the site are to remain unaltered. To the north and east boundaries painted metal estate fencing is to be installed.

Soft landscaping :-

Shall include planted beds as noted and grassed areas. For species details please refer to the accompanying schedule.

TREE REPORT

Please refer to report produced by Tree Heritage for details of the existing trees on site. To enable the proposal to be related to these findings, tree references, measured canopies and root protection areas taken from the report are indicated here.

TREE KEY

TREE TO BE RETAINED

TREE TO BE REMOVED

TREE RPA

LEVELS

Floor levels are indicated for the proposed dwellings and other strategic points. The levels to the perimeter of the site shall remain unaltered with the remaining ground levels graded between as necessary.
