Comments: I support the planning application for the regeneration of a previous area of the theme park with the installation of a new roller coaster attraction. Following events last year relating to the accident of The Smiler vistor numbers have fallen, this new attraction should help to increase vistor numbers again and ensure jobs at the resort are maintained, providing the local community with a place of work.

Traffic should also not be a continued problem as visitor number will likely not rise above levels previous to The Smiler incident in the mid-term future and should instead just be returned to this level.
