Rob,

To re-iterate what I said this morning, it is not a problem to excavate outside a 45 degree line from the back of the highway so I am quite happy for them to progress this without my presence. If any further excavation is required then this can be considered subject to either the wall being sound or the excavation being carried out in short lengths of 1 metre.

Please keep me informed of progress.

Regards,

Dave Wymer B.Sc, CEng, MICE.
