WAIN Brothers

18'-1"x18'-5" Dual garage, plain panels treated with 'Tyrolean' finish. Georgian style centrally locked access doors

GARAGES

TRENT POPULAR

When it comes to choosing a garage you'll understand why the **Trent** 'Popular' is a firm favourite!

With its traditional and functional good looks and neat apex roof, it's so much more than a shelter for your car: it's a workshop, a storage space for bicycles and garden accessories... in short, it's an asset that will actually help increase the value of your home. The 'Popular' comes in a wide range of sizes with a choice of timber side hinged doors or a variety of up-and-over doors, in brick-effect or plain-faced finish. Your **Trent Garage** is ready to paint; we recommend that you enhance its appearance and value with masonry paint, available in a wide choice of colours

For top quality and sheer good value you simply cannot beat a **Trent Garage**.

For further details ring (01782) 202180 or write to the address below.

- Robust hydraulically pressed wall panels in brick-effect or plain-faced – impervious, frost-resistant, fireproof and rotproof.
- The finest method of construction – and so simple; with no protruding bolts or clamps.
- Attractive clean lines – exterior walls completely free of posts.
- Flush interior walls for maximum useful space.
- We arrange your Planning Approval locally for just a nominal charge.
- Add the finishing touch to your home with the wide range of **Trent Garages, Workshops, Sheds** and **Stables**.

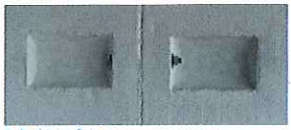
Two Trent 'Popular' garages erected within school grounds to provide storage for children's toys

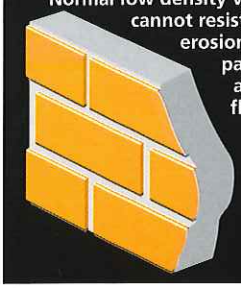
18'-1"x10'-5" with off-set door



Bolted joint fixing

THE STRENGTH OF PRESSED CONCRETE

The secret of our superiority lies in our walls. They are constructed from extremely high-density modular panels (formed under enormous hydraulic pressure) to give them massive strength and great resistance to the worst weather. Normal low density vibrated panels cannot resist weather erosion for long - particularly frost attack which flakes away the concrete until it eventually becomes structurally weak.



EXTRA CHOICE & VALUE

Give your garage the personal look at no extra cost with a choice of traditional hinged double timber doors, or a single up-and-over galvanised steel door.

Alternative up-and-over galvanised steel doors in an elegant Georgian panel style or modern ribbed finish are available as optional extras.

Your garage comes complete with one 4'x3'-2" window frame, glass and putty. Extra windows and personal door are also available as optional extras at the time of ordering.
