Dear All,

Re: Application SM19/2014/0227
Land South of Thorley Drive.

We wish to strongly object to the above
application, as we did previously.

Myself and family attended the consultation meeting
held on the 24th July this year but there were
no answers given to questions asked such as where would
the entrance be to this large development (particularly
as this is an extremely busy and fast road with many
"blind corners" and the traffic survey which was in place.
The land mentioned has an abundance of wildlife
which is well established and this would be totally
annihilated to be replaced by properties situated on what
will become an even more dangerous road.

Notwithstanding this Chaddle's road system really struggles

with traffic already on its roads. The small roundabout at the bottom of Ashbourne Road is already a serious accident waiting to happen. When cars and wagons are parked on the road opposite the entrance to Asda, the congestion is bad and tempers raised - we cannot imagine what would happen with more transport on the roads of Cheddle. Cheddle is a lovely old place but it is what it is just that. It is totally impractical and dangerous to all its residents to put more traffic on its roads. Cheddle's whole infrastructure is not suitable for this type of development and nothing has changed ^{since} ~~the~~ previous applications.

We live here and know what we are talking about, please listen to us.
Thank you for your time.

From the family at
64, Thorley Ave,
Cheddle.
