PLANNING APPLICATION
DESIGN STATEMENT

JOB NO 2498
MARCH 2008

PLANNING APPLICATION DESIGN & ACCESS STATEMENT.

Use of the development and relevant planning considerations

The proposed development is intended to replace an unsightly dilapidated range of buildings with a small terrace of three low cost dwellings.

In the preparation of this application Planning Policies B10, BII, B13, H5 and H14 have been considered.

Site Analysis

The existing site consists of a single storey annexe of a public house and two single storey retail outlets attached to a two storey terrace house.

The main street scene consists of traditional terrace two storey properties, which is disrupted by the single storey buildings, proposed to be demolished.

The site falls within the Upper Tean development boundary and the application complies with Policy H5.

Design concept and principles

This application is for the demolition of the existing single storey buildings and the erection of a terrace of three two storey two bedroom houses along with a single storey extension to the public house to replace the toilet accommodation which is currently contained within part of the single storey building to be demolished.

The existing retail units have remained unoccupied for many years and have, as a consequence, fallen into a state of disrepair resulting in an unsightly appearance. This application is supported by Mrs G. Bayliss (Senior Conservation Officer SMDC) who was consulted during September 2007 and whose suggestions have been taken into account in the preparation of this scheme. In accordance with Policy B10 the replacement of these buildings would produce substantial benefit to the surrounding domestic properties.

The proposed dwellings have been designed in sympathy with the traditional Victorian terrace houses adjoining the site which, it is intended, will enhance the character of the site which is situated in the Upper Tean Conservation Area and is, therefore, in accordance with Policy B11.

The proposed extension to "The Black's Head" public house is to be sited within an enclosed yard area concealed from general public view. The extension will be an unobtrusive addition to the premises being designed to modest proportions to accommodate the toilet facilities in as small an area as possible.

Design Solutions

The design of this building, as with all architectural design, has arisen from meeting the functional needs and financial limits of the client, whilst at the same time ensuring that a 'well planned' developments results.

Functional need

The re-development of the site will provide three modest two bedroom houses each having a floor area of approximately 50 square metres which is in line with "Supplemental Planning Guidance – Housing for Local People and Affordable Housing"

The size of the dwellings is such that they are ideally suited to single persons and first time buyers and are in accordance with Policy H14.

External appearance

The design of the proposed houses is in line with traditional Victorian terrace housing in keeping with the majority of the housing stock in the centre of Tean village.

The proposals are sympathetic to the scale and character of the surrounding buildings in accordance with Policy B13.

Community Involvement

This is a minor development, which meets the criteria of all the relevant Policies of the Local Plan, and in order to control the development costs there has been no formal attempt to engage with the community about this proposal. It is understood that neither

planning law nor the Council's Statement of Community involvement (SCI) requires any such consultation.
The applicant is however prepared to meet and show around the site any officer or elected representative who wishes to understand more about these proposals.

Access

The site is in the centre of Tean village and is within easy walking distance of all the local amenities including shops, schools, churches and public houses.

Several established bus routes affording easy access to nearby Cheadle, Uttoxeter and Stoke-on-Trent serve Tean.

The building has been designed to comply with the building regulations and will therefore afford satisfactory access for people with restricted mobility in accordance with Policy B13.

Business description

The Blacks Head is situated on the site of an old alehouse, but was built in the early 19th Century. The pub is a focal point of the town and is blessed with approximately 1½ acres of very good land, if planning permission was obtained. A huge car park is also an advantage, and is offered with a large empty shop premises adjoined. The pub is a traditional dwelling in every sense of the word with pool, darts, quiz teams etc. A brand new fully fitted commercial kitchen has just been added making the potential of the pub second to none. SBS Commercial recommend early viewing to avoid disappointment.
