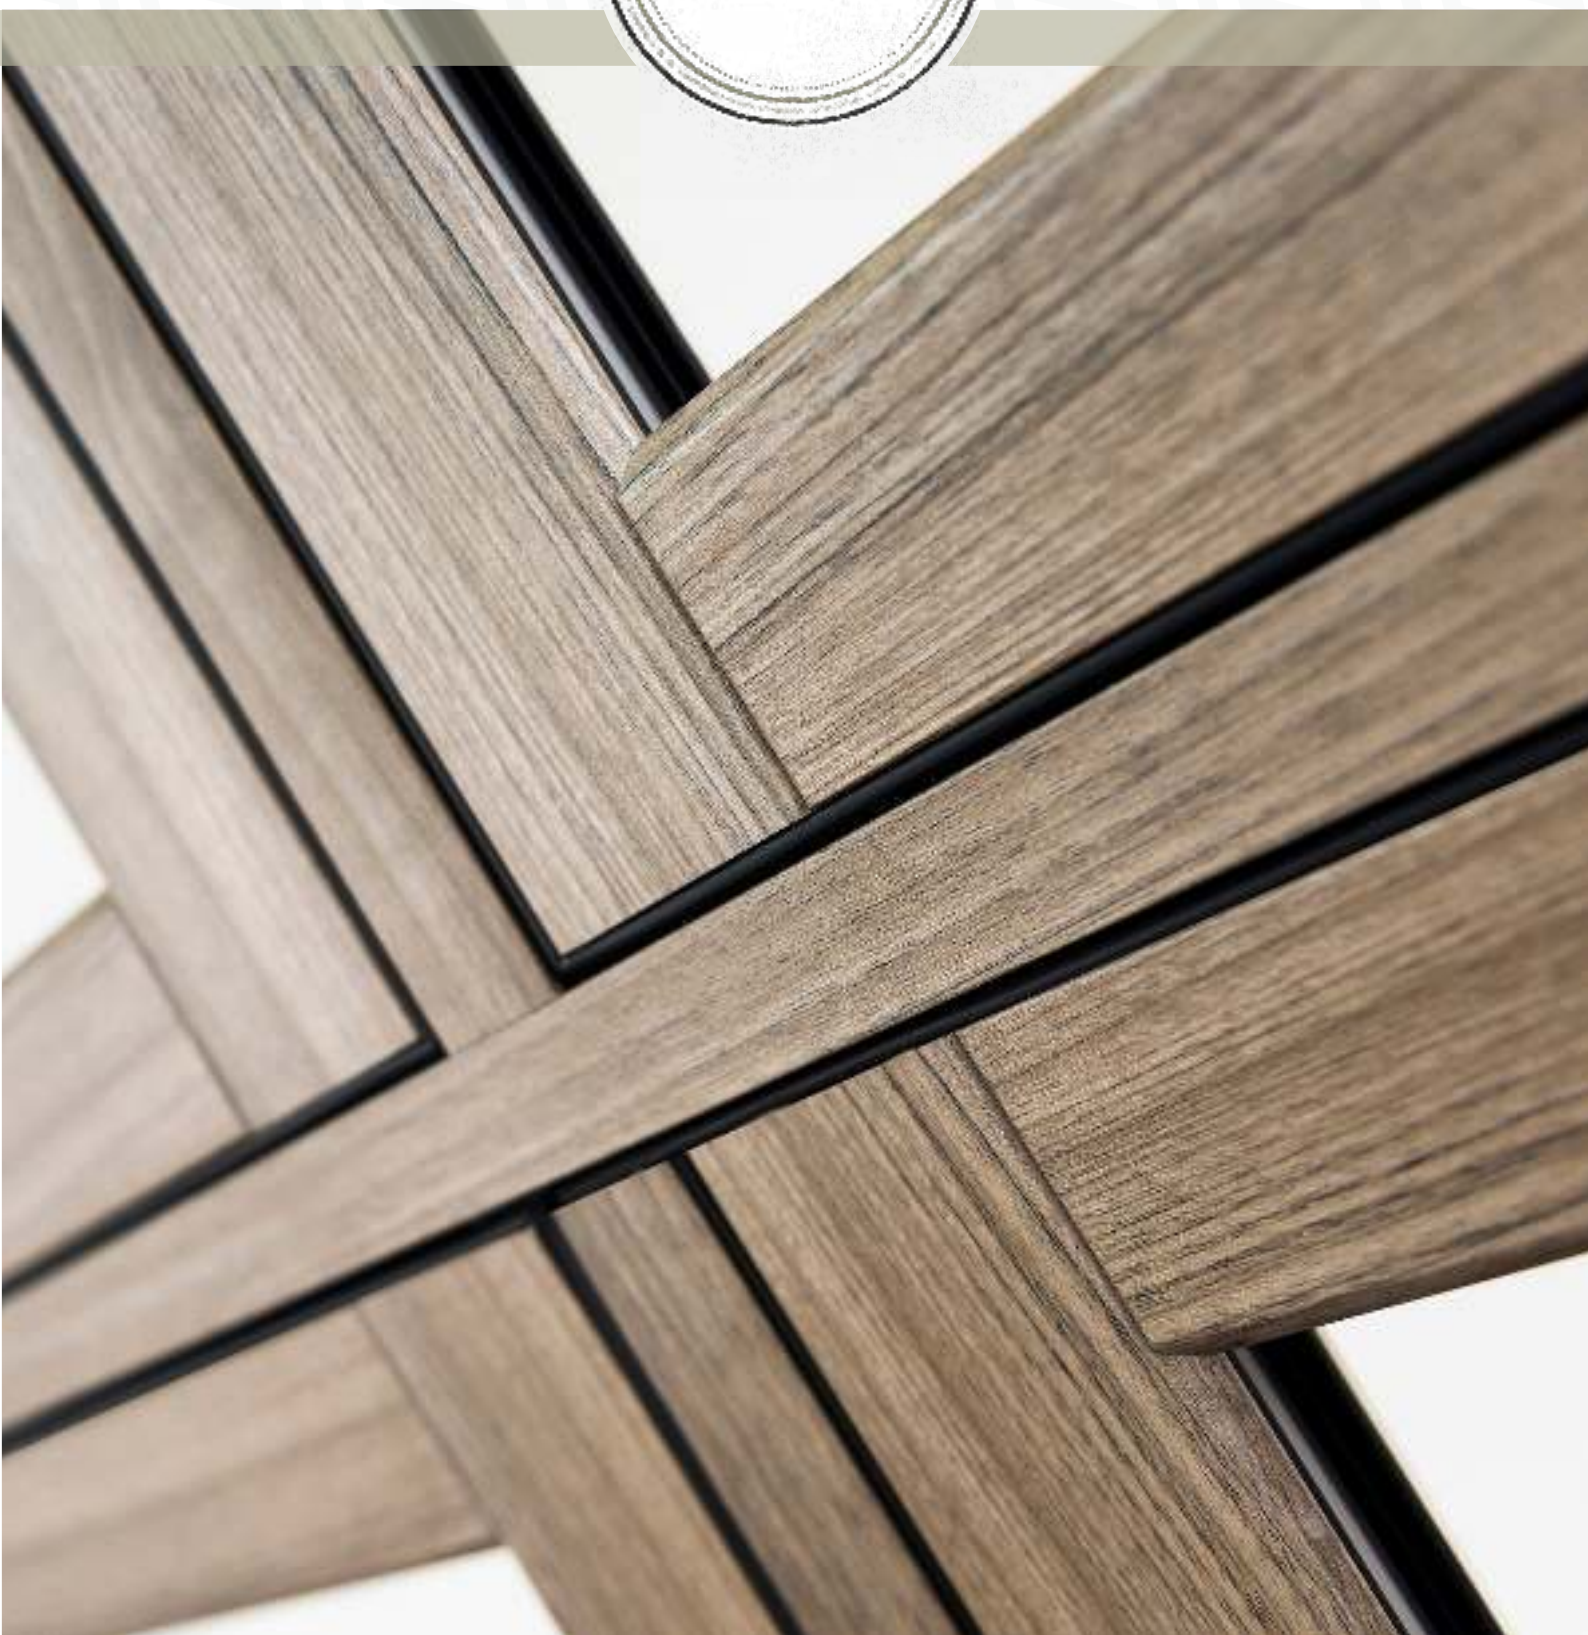
TIMELESS



PREMIUM FLUSH SASH TIMBER ALTERNATIVE

The Timeless FlushSash system is crafted from modern, weatherproof PVC-U, which - unlike traditional timber windows - will never need sanding or repainting and will never rot, split or swell.
These low-maintenance windows will keep your home looking its best for years to come, with no more work than an occasional wipe with a damp cloth.

TIMELESS

The Timeless FlushSash is the latest innovation to come from one of the UK's leading PVC-U systems suppliers.

Unlike chamfered and sculptured styles which are designed to add contour and detail to your windows, the Timeless FlushSash sits flush within the frame and offers traditional, understated elegance.

Timeless FlushSash can be specified in bespoke sizes to suit the windows of your home, whether it's a tall townhouse or a quaint and cosy cottage.

ENERGY EFFICIENT

With the Timeless FlushSash you will no longer need to worry about the draughts and damp that are traditionally associated with period properties. Perfect for heritage applications, your home could be a warm and quiet haven if you choose to replace your old weather-worn windowswith the elegant, energy-efficient Timeless FlushSash.

The five-chamber PVC-U frames of the Timeless FlushSash, with double or triple glazing, will ensure your home is extremely weatherproof and draughtproof, providing an outstanding thermal barrier against driving winds and rain, even in the most exposed locations.

A+ Timeless FlushSash delivers energy efficient A+ rated frames

1.3 Indicative U value achieved using a 28mm double glazed unit delivering high energy efficiency and big savings on energy bills

Timeless FlushSash delivers outstanding weather resistance and performance

AUTHENTIC STYLE

The newly unveiled Timeless FlushSash window is reminiscent of early 19th Century timber windows and is ideal for heritage homes, particularly in conservation areas where authentic looks are all-important.

However traditional this window may look, it offers deceptively modern performance. Your home will be a haven of warmth and quiet, thanks to the thermal and acoustic insulation of the Timeless FlushSash. It has a five-chamber internal construction for increased energy efficiency.

SAFETY AND SECURITY

Your windows shouldn't just look the part, they should provide the highest standards of security to keep your family, home and belongings safe. With the Timeless FlushSash, you don't have to choose between style and security.

Thanks to the system's clever design, it seamlessly combines timeless elegance with a range of robust security features.

Every window offers multipoint locking and features industry-leading hardware in the form of stylish key-locking handles. The multi-chamber construction of the window frames ensures impressive structural strength.

The Timeless FlushSash system meets or exceeds all British Standards and holds relevant accreditations for all aspects of security and weatherproofing. The PVC-U profile used to create these high spec windows has been independently assessed and has BS kitemark and BBA accreditation, it achieves BS7950 and PAS 023/024 for security and BS6375 wind and water testing (Classification: severe).

CHOOSE CLASSIC WELD OR OUR TRADITIONAL TIMELESS DETAIL

Unlike other flush systems, the Timeless FlushSash is available in two jointing options, Classic Welded joints and **Timeless Detail**, our Traditional Mechanical Joints. Classic Welds give a contemporary and modern twist to this heritage style. The corners are precision welded so that the join is seamless. The Timeless Detail Mechanical Joint is a traditional style mitred butt joint that is sealed in place, replicating a timber joint with meticulous detail.

TIMELESS HARDWARE

You can personalise your beautifully-designed Timeless FlushSash windows with a choice of heritage details. Choose our decorative monkey tail or tear drop handles with ornamental peg stays to give the feel of a genuine traditional timber window. These optional finishing features will give your home's interior as much historic style and authenticity as its exterior.

Speak to a member of our friendly team to discuss the many options available for your home. We can help add character and class to your property, while improving its energy efficiency.

PEAR DROP HANDLE

Unique cranked design provides good clearance between the handle and the window.

A unique, traditionally designed teardrop handle that fits perfectly with the Timeless Window and Door Collection. The Pear drop handle grip has been ergonomically designed to fit perfectly in the palm of your hand.

Matching traditional peg stays are available to create a perfectly matching Timeless window. Available in matching colours as above.

MONKEY TAIL HANDLE

Elegant design inspired by 19th century ironmongery.

Manufactured from die-cast zinc with a specially formulated finish, it is suitable for all our Timeless styles, most rooms and most interior schemes, you just need to choose the best colour option for you.

Matching traditional peg stays are available to create a perfectly matching Timeless window. Available in matching colours as above.
