Dear Sir/Madam,

Application number:SMD/2016/0565
9 Chapel Lane, Biddulph Moor

Following a recent visit from one of your Planning Officers we would like to voice our concerns with regard to the proposed building of a garage at 9 Chapel Lane, Biddulph Moor.

Whilst we understand the need to build a garage we do consider that the current proposals regarding both the siting and size of the garage would be very intrusive to ourselves.

The land at the rear of 9 Chapel Lane is considerably higher than ours and the proposed construction would present a large building that would be considerably higher than the present boundary and therefore very intrusive to us. In addition to this, the proposed length of the garage would extend for a considerable distance along the boundary wall.

In respect of this, the current proposals would be a significant cause of concern for us.

Yours faithfully

P. Meehan
