Subject: objection to planning

Dear Sir/Madam
Ref SMD/2016/0759

I wrote recently regarding the previous application from this applicant, stating that the addition of extra rooms to the care home would increase the parking difficulties as the provision of some extra parking would not be sufficient for the extra staff needed, and the increase in young people living there would likely escalate the occasional anti-social behaviour. On this more recent application I notice that the request is now for 'change of provision' from a dwelling house to a residential institution - this business has already been in operation for some time, without it seems permission.
Please see my (and other residents') previous correspondence, as the detail of the objection remains the same

Kind regards,
Jayne Rushton
