Subject: Planning Application

Hi Sue,

Thank you for your email below; I was not sure if we would require planning permission for this wi
therefore I thought it best to include it on the application.

As this is not necessary, please mark the upstairs window as "permitted development".

Kind regards
Claire Poyser-Blair

Good morning Mrs Poyser

Further to the submission of your planning application we note that you are also installing a firs
about the ground floor
bay window. This can be installed under permitted development rights but, because you have sh
window on your drawing, it will become part of the application. The alternative is to instruct us
particular window on your plan as permitted development.

Please instruct us via email, as soon as possible, of your intention.

Regards
Sue Fredericks
