Application no: SMD/2020/0120

Determined on: 11/05/2020

Town and Country Planning Act 1990 Section 192
(As amended by Section10 of Planning and Compensation Act 1991)
Town and Country Planning (Development Management Procedure) (England) Order 2015

APPROVAL TO ISSUE CERTIFICATE OF LAWFULNESS OF PROPOSED USE OR DEVELOPMENT

Staffordshire Moorlands District Council hereby approves to certify that on 04/03/2020; the matter specified in the First Schedule taking place on the land specified in the Second Schedule and edged red on the plan attached to this certificate, was lawful within the meaning of Section 191 of the Town and Country Planning Act 1990 (as amended), for the following reason(s):

The single-storey rear extension, (in accordance with details shown on submitted drawings 19-007-S03.01 and 19-007-S03.02) is Permitted Development by virtue of compliance with Schedule 2, Part 1, Class A of The Town and Country Planning (General Permitted Development) (England) Order 2015 subject to the condition that the materials used in any exterior work must be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse.

FIRST SCHEDULE
Proposed single storey rear extension.

NOTES

1. An applicant may appeal against by giving notice to the Secretary of State:-

   (a) the refusal to issue a certificate under Section 192 of the Act; or

   (b) the failure to give notice of the Council's decision within 8 weeks of the registration of the application, or any other period agreed with the Local Planning Authority;

   Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at https://acp.planninginspectorate.gov.uk

2. As part of the appeal process the Applicant must submit to the Planning Inspectorate a copy of the following documents:

   - a copy of your original application
   - a copy of the local planning authority's decision notice - if they didn't make a decision, send a copy of the letter acknowledging your application
   - a map of the site
   - copies of all plans, drawings and documents you sent to the local planning authority
   - copies of any letters or emails from the local planning authority
   - any other documents that directly support your appeal

   If you think your land or building is now lawful because the time limit for enforcement has passed, you also need to submit evidence like:

   - dated photographs of the site
   - letters from neighbours
   - receipts or invoices for work
   - plans and drawings

3. This Permission does not confer on the Applicant the right to build on or over land owned by a third party without the third party's consent. You should therefore seek the prior agreement of your neighbour(s) before entering their land. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:

   www.gov.uk/government/publications/buildingonorwithintheinfluencingdistanceofmineentries
   Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal Page 4 mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is

trespass, with the potential for court action. Property specific summary information on past, current and future coal mining activity can be obtained from: www.groundstability.com or a similar service provider. If any of the coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at: www.gov.uk/government/organisations/thecoal-authority

4. Severn Trent Water advise that there may be a public sewer located within the application site and states that although their statutory sewer records do not show any public sewers within the area you have specified, there may be sewers that have been recently adopted under the Transfer Of Sewer Regulations 2011. Public sewers have statutory protection and may not be built close to, directly over or be diverted without consent and contact must be made with Severn Trent Water to discuss the proposals. Severn Trent will seek to assist in obtaining a solution which protects both the public sewer and the building.

5. Please note that there is no guarantee that you will be able to build over or close to any Severn Trent sewers, and where diversion is required there is no guarantee that you will be able to undertake those works on a self-lay basis. Severn Trent states that every approach to build near to or divert their assets has to be assessed on its own merit and the decision of what is or isn't permissible is taken based on the risk to the asset and the wider catchment it serves. It is vital therefore that you contact Severn Trent at the earliest opportunity to discuss the implications of any of their assets crossing your site. Failure to do so could significantly affect the costs and timescales of your project if it transpires diversionary works need to be carried out by Severn Trent.
