## Design Statement

### Existing

The property has been in the family since it was built over 100 years ago. It has recently been handed down to Mr & Mrs Doorbar who are anxious to continue the family's association with the house. The present accommodation is limited and is in need of substantial refurbishment to bring it to a modern living standard. The property currently has 3 bedrooms, however the smallest is of limited size and is not adequate for use as a bedroom.
The existing dwelling has a store or shippon attached at the rear, which has always been used as a domestic store. Originally there was an additional out building attached to the shippon, which was demolished some time ago. The shippon is not in a condition whereby alteration to accommodation will be possible and it is intended to demolish it.
The existing timber porch to the Western elevation is also to be demolished due to its poor condition and a new extension built to the same footprint.

### Proposed

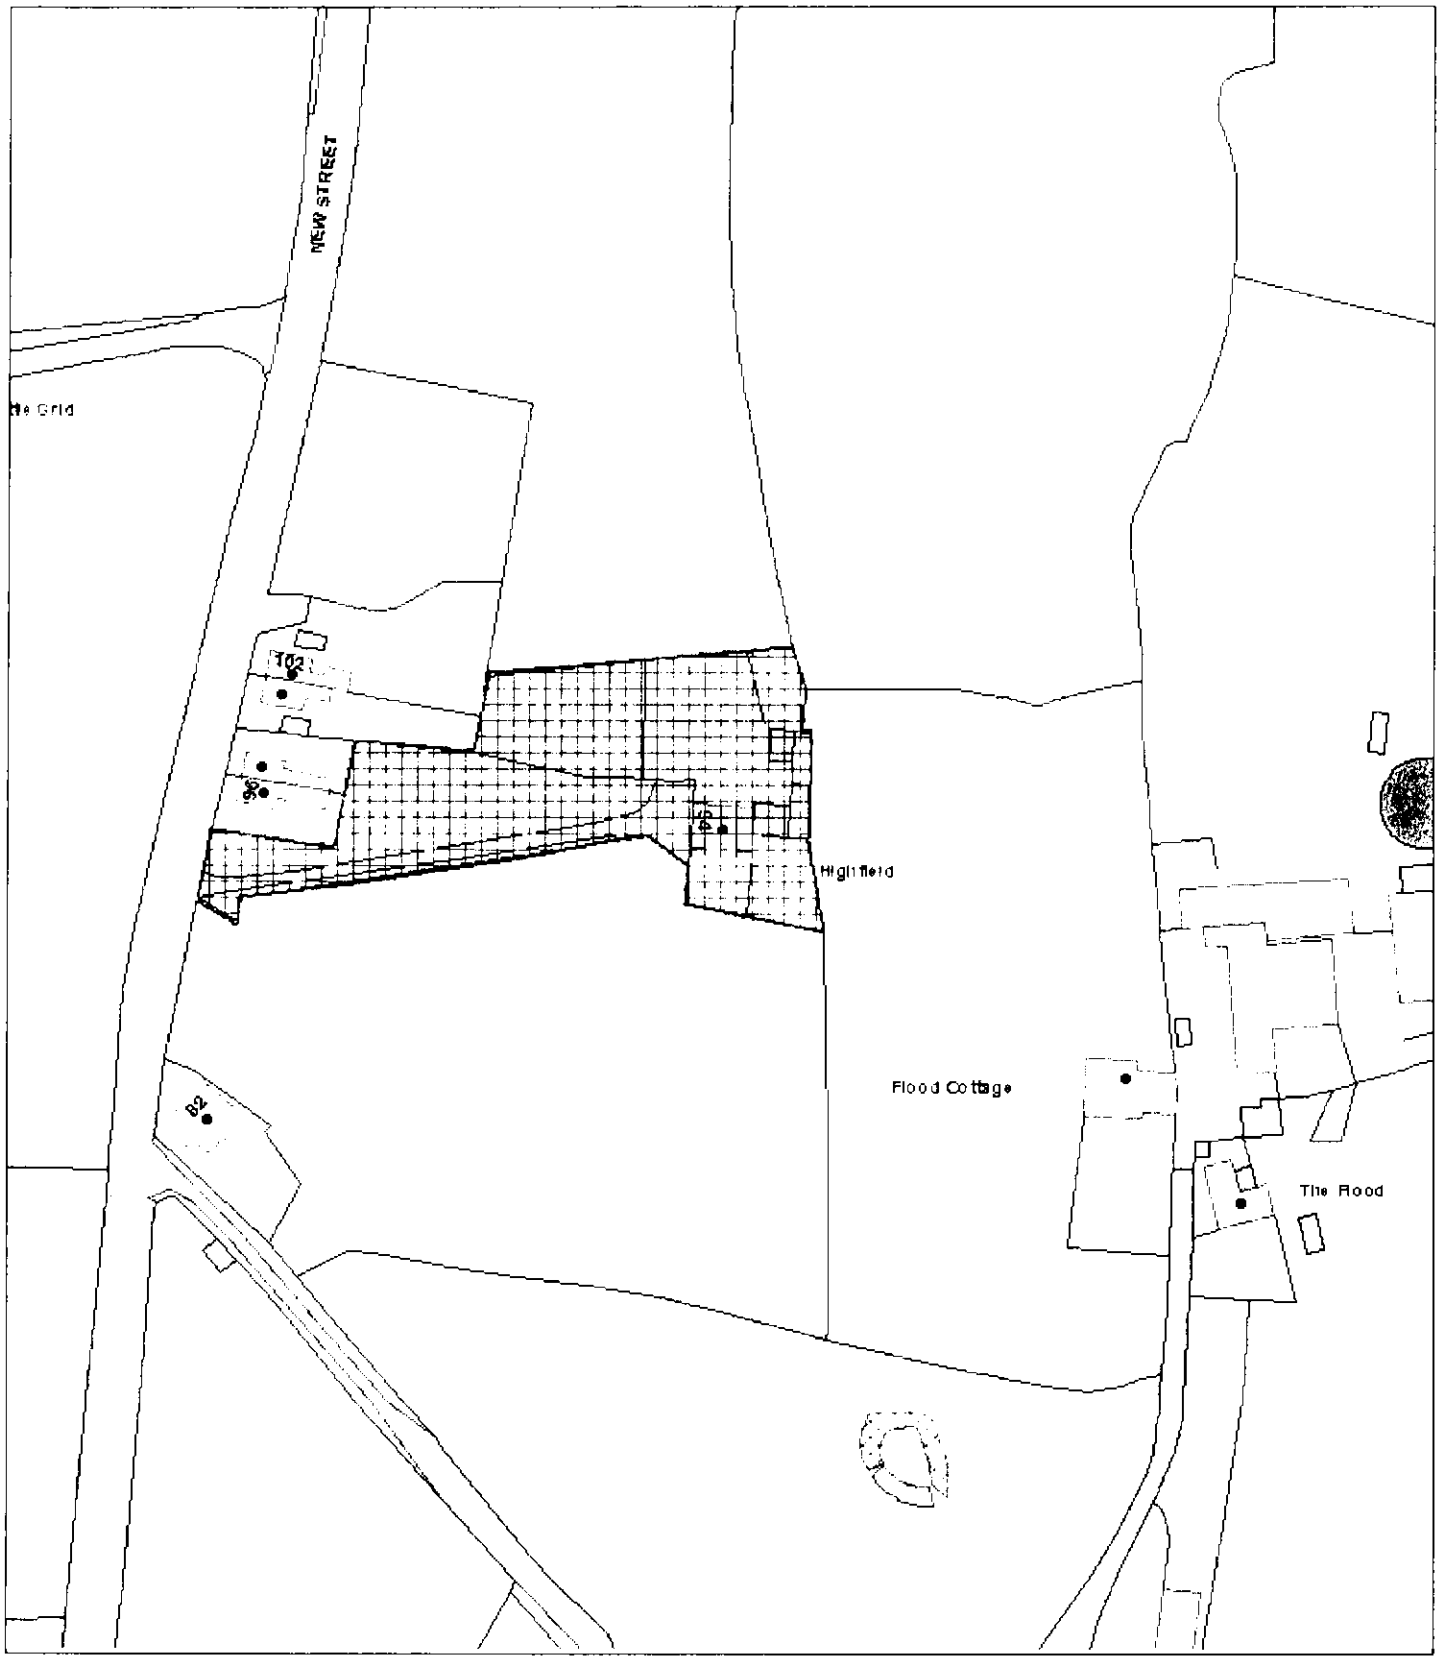

The proposed extension amounts to 44% of the original property by volume, measured externally, when considering the existing shippon as part of the dwelling. The proposed extension replaces the existing shippon and is such that the identity of the original house is retained. Considering the size of the existing house the extension does not result in a disproportionate increase and therefore has no adverse impact on the building or character and appearance of the area. The house is situated some 100 meters from the public highway and the main extension is located on the eastern side of the property facing away from the highway
It is intended to build the new extensions from matching materials so that in time they will blend in with the original. Other minor internal alterations are necessary to complete the required level of accommodation.
