Flag Tower, Alton Towers

As far as I can see this application proposes the addition of a 0.3m dish onto an existing aerial which is sited on the inner side of one of the turrets. The dish will be sited beneath the top of the turret so it will not breach the silhouette of the structure. Whilst we are looking to minimise the amount of telecommunications clutter on the building I don't feel that the proposal will have any marked impact on the historic interest of the Listed Building.

No objections
