Staffordshire Moorlands
Planning Department,

Dear Sir/Madam

I have been advised to attach a covering letter to explain the discrepancies between the licensed Planning MasterMap and the the reality of The Croft at the time of this application PP-595732.

It is my understanding that around 2008 planning permission was sought and granted for an approximate 3.7m x 9m two storey extension to the dwelling house itself as indicated (A1) on the 1:500 site map attached. Further, that an approximate 6m x 14m (<2.5m high) garage and stable block was subsequently allowed under permitted development (marked A2 on site map) as it was within the curtilage of the dwelling.

However this application for a poly tunnel relates to a site within, and to the northern edge of the adjacent field

Sincerely yours,

Gavin Furnival
