Submission: Objection
Comments: To whom it may concern

As the immediate neighbour and the person who has instigated this application I would ask the planning committee to consider the following concerns I have noted below regarding the Car wash application at Kingsley Moor service station.

The reasoning for my objection is as follows,

The hand car wash is generates significantly more noise than the automated wash. As you can appreciate he noise from jet washing metal panels is like white noise used in the military to breakdown the will of the enemy, even with the acoustic wall this will not prevent the persistent noise penetrating my first floor bedrooms.

I also find that the operating hours are not at all acceptable especially on the Sabbath of 9am until 5pm, a 9am start would not be acceptable regardless of my religion, as a Christian I should not accept this disturbance on the sabbath which in my religion is the Lords day and a day of peace in my own home. I would therefore as a matter of respect and privacy that the facility be excluded from working on said Sabbath. If you were to allow this I would have no alternative but to lodge an appeal with the support of the Christian community.

I would also mention the site safety, they have already had visits from the Staffordshire fire department and council regarding storage of rubbish and gas bottles, during the summer holidays the workers childmind their children on the site. I do have photographic evidence of open storage containers (fire hazards) non compliant electrical installations should you wish me to forward this to the planning department.

I would ask that this application to be rejected due to my concerns above until such a time that they can be resolved.

I would appreciate knowing if this will be going to a planning meeting so I can attend.

Regards
