Subject: Proposed Development

Application number SMD/2017/0411

In light of getting the proposed development letter through the post. Id like to raise the concern of the lack of light entering my property from the back due the 10ft bushes just been planted by number 30 and now with this plan to make the house taller and wider we are being blocked out even more.The fantasic views of the rolling hills have already gone and now we fear of losing even more light to our house. Many thanks shaun jenkinson 07736837851
