Application no: SMD/2023/0282

Determined on: 13.03.2025

Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015 (as Amended)

FULL PERMISSION FOR DEVELOPMENT

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:
Land off Sandy Lane Brown Edge Staffordshire

Description of Development:
Proposed detached dwelling

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby approved shall be begun before the expiration of three years from the date of this permission.
Reason: To comply with the provisions of Section 51 of the Town and Country Planning, Planning and Compulsory Purchase Act, 2004.

2. The development hereby approved shall be carried out in accordance with the details as submitted in the application form and submitted specifications and as shown in drawings:
N1088_AL(0)01 Location Plan
N1088_AL(0)03 rev B site plan
N1088_AL(0)04 floor plans
N1088_AL(0)05 elevations
Reason: To ensure that the development is carried out in accordance with the submitted details and approved plans, in the interests of good planning, for clarity and the avoidance of doubt.

3. Prior to construction of exterior walls above damp-proof course level and notwithstanding the submitted drawings details including types and colours along with samples if requested of all external facing walling and roofing materials shall have been submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be carried out in accordance with the details as subsequently approved in writing.
Reason: To ensure that the completed external appearance is appropriate to its surroundings.

4. Prior to the commencement of development hereby permitted there shall be submitted to and approved in writing by the Local Planning Authority details of the existing and proposed levels across the site and relative to adjoining land, together with the finished floor levels of the proposed building. The development shall be implemented in accordance with the levels details as subsequently approved in writing by the Local Planning Authority. There shall be no variation in these levels without the written approval of the Local Planning Authority.
Reason: In order to ensure the satisfactory appearance of the development and its appropriate relationship to the site and adjoining land.

5. Prior to the commencement of development hereby permitted there shall be submitted to and approved in writing by the Local Planning Authority details of a scheme of protected species management supported by further ecological survey as necessary to ensure appropriate mitigation of any impacts on protected species including Great Crested Newts during the development work, together with a scheme of biodiversity enhancement and landscaping which shall include wetland pond creation and tree planting. The development shall be carried out in accordance with the schemes of mitigation and enhancement as subsequently approved in writing. The biodiversity enhancement and landscaping shall be completed within 12 months of the development first coming into use or its substantial completion whichever is the earlier and shall thereafter be retained for the life of the development.
Reason: In the interests of biodiversity, protected species and visual appearance.

6. Prior to the commencement of development hereby permitted drainage plans for the disposal of surface water and foul sewage shall be submitted to and approved in writing by the Local Planning Authority. The drainage scheme shall be implemented in accordance with the details as approved before the development is first brought into use.
Reason: To ensure that the development is provided with a satisfactory means of drainage as well as to reduce the risk of creating or exacerbating a flooding problem and to minimise the risk of pollution.

7. All construction activities shall be restricted to the following times of operations:
08:00 - 18:00 hours (Monday to Friday);
08:00 - 13:00 hours (Saturday)
None on Sundays or Bank Holidays.
Reason: To avoid the risk of disturbance to neighbouring dwellings from noise during anti social hours.

8. Where during any works on site, unforeseen contamination is suspected or found, or

contamination is caused, works on the site shall cease and the Local Planning Authority shall be notified immediately. A risk assessment and remediation proposals, if required, shall be submitted to and approved in writing by the Local Planning Authority. On approval of the remediation strategy, the development shall then be carried out in accordance with the approved details and process including any required timescales.
Reason. To secure the satisfactory development of the site in terms of human health and the wider environment and pursuant to National Planning Policy Framework Section 15 - Conserving and enhancing the natural environment.

9. No top soil or fill material associated with the development, is to be imported to the site until it has been tested for contamination and assessed for its suitability for the proposed development; a suitable methodology for testing this material shall be submitted to and agreed in writing by the Local Planning Authority prior to the soils being imported onto site. The methodology shall include the sampling frequency, testing schedules, criteria against which the analytical results will be assessed (as determined by the risk assessment) and source material information. The analysis shall then be carried out and the validating evidence shall be submitted to the Local Planning Authority to be approved in writing prior to the soil being imported.
Reason: To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

10. The development hereby permitted shall not be brought into use until the parking areas for the development have been provided in accordance with the approved plans. The parking areas shall thereafter be retained unobstructed as parking areas for the life of the development.
Reason: To comply with NPPF Paragraph 115; to comply with SMDC Local Plan Policy DC1; in the interests of highway safety.

11. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that order with or without modification), no development as specified in Part 1 Classes A; B; and C; other than those expressly authorised by this permission, shall be carried out without express planning permission first being obtained from the Local Planning Authority.
Reason: To enable the Local Planning Authority to control the development and so safeguard the character and visual amenities of the area, to ensure that adequate private or shared amenity space is retained within the curtilage of the building.

Informative

The proposed development is judged to be of suitable design and meets the tests of sustainability in planning. There are not judged to be any adverse implications for neighbours or wider public amenity and street scene. Amendments were agreed with the agent in the course of the determination in accordance with the approach to decision making as advocated in the National Planning Policy Framework at paragraph 39.

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting DBCP Limited, Web: dbcp.co.uk; Email: info@dbcp.co.uk ; Tel:0333 880 2000.

2. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Staffordshire County Council.

3. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:
   (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
   (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.

4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.

5. The permission is granted in strict accordance with the approved plans. It should be noted however that:
   (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
   (b) Variation to the approved plans will require the submission of a new planning application.

6. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

7. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

8. If this is a decision to refuse planning permission for a minor commercial application, and you want to appeal against your local planning authority's decision then you must do so within 12

weeks of the date of this notice.

9. If this is a decision to refuse express consent for the display of an advertisement, if you want to appeal against your local planning authority's decision then you must do so within 8 weeks of the date of receipt of this notice.

10. If you want to appeal against your local planning authority's decision for any other type of development, including listed building consents then you must do so within 6 months of the date of this notice Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at https://acp.planninginspectorate.gov.uk

11. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

12. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

13. Domestic sprinklers. Fire sprinklers operate automatically even if you are not at home releasing water directly over the source of the fire and sounding the alarm, they are unobtrusive and easy to install. Sprinklers are NOT expensive; normally costing around 1-2% of the cost of construction of a new building. The use of sprinklers will usually allow design freedoms as well, which can reduce construction costs and improve usability and design freedoms of the building. The chance of an accidental discharge is 16,000,000:1 If you would like further advice please contact Staffordshire Fire and Rescue Service (www.staffordshirefire.gov.uk).

14. Working smoke alarms correctly positioned in your home can save your life. The Fire Service recommends you have smoke alarms on every floor of your home, including in each bedroom, and make sure you test your smoke alarms at least once a month. Although the application of approved guidance and enforcement of regulations will give buildings the legally required baseline of fire protection, the Fire Service's viewpoint is many of these fall short of what we would consider adequate. This is why we campaign for the inclusion of sprinklers.
