Comments: I believe the intended extension to this property to be out of scale with the area and surrounding properties. The property is already a large detached residence and is in an elevated position particularly in respect to the rear elevation. The development would have a particularly adverse effect on the properties to its rear, from obliterating views, overlooking neighbouring properties and also adding to its overbearing effect on the properties to its rear.

This property should not be extended in the proposed manner as it would basically be too large for its location.
