Subject: RE: SM.15/04/177 W D1: Hillside Industrial Park, Draycott Cross Road, Brook Houses, Cheadle

Good morning David,
I would like to confirm that the operatos has conducted formal noise monitoring with a suitably qualified person at six monthly intervals since the planning was granted. It is intended to continue 6 monthly monitoring for a further year following approval of the noise action plan. Informal monitoring by site management and COTC holder looking for potential noise "nuisance" will continue beyond that as set out in the noise action plan.

Should there be complaints about noise during the year after approval, consideration will be given to extending the period of monitoring or increasing the frequency of monitoring.

Regards,

Dave Alcock
Director
