Comments: I live right opposite this proposed application. The public house is a busy going concern as is the garage, post office & local shop & news agents. There is not enough public parking in the village center & with this proposed development will mean that more on street parking will be required, thus causing more issues with access to my property. Which is already difficult due to the row of terraces by the pedestrian crossing.

You as a planning department need to come & do a site visit at the weekend or in an evening.

The road is already busy with traffic & to have more inroad parking will be dangerous for the local community. The car park is used by all with the elder community using it to access the shops, library bus & bus stops for trips to town.
