Dear Sir or Madam,

We are applying for change of use as our circumstances have changed.

On completion of the office our intention was to use the building for selling properties abroad, in Turkey. We had established an English – Turkish partnership with our daughter working for the company in Turkey. Unfortunately, our Turkish partner was killed in a road accident and we could no longer trade. Our daughter has, therefore, returned to our family home which is a three bedroomed house, where our son, his partner and their baby are living along with ourselves.

Hopefully, with the change of use granted, our son, his partner and their baby will be able to live in the building as our house is not big enough to accommodate all of us and is over-crowded. This would also help to ease the problem of the local council finding alternative housing for them.

Yours faithfully,

(W A Croft. Mr.)
