Dear Sir/Madam,
I am writing to object to the erection of a permanent hoarding at the Lord Shrewsbury.
In it's original application to renovate & restore the old building they were supposed to be creating a "Retreat" for sixth formers & education.
This had many restrictions placed upon it which was enough to assuage the fears of the surrounding residents regarding noise pollution,traffic etc.
Since then we have had several areas of concern,namely,inappropriate storage of waste products,lack of clearing site following construction leaving an eyesore.
Removal of excellent soil which was partly inhabited by flowering shrubs ,replaced by infill which hardly allows anything other than weeds to grow.
Now we do not know what the size or content of the sign will be & it is intimated that the building may be used for tea rooms (which has slready been attempted),
b & b accommodation,wedding parties. None of these were allowed in the original application 12/01302/FUL & dealt with by Rachael Simpkin .
My wife & I strongly object to this plan. There are still too many unfinished items from the original planning even before this should be considered.
sincerely
John Moorhouse
