We object to this application due to lack of information being provided. We want to know why a road has been installed already that is now connected to our driveway. Already we have had to repair the driveway due to the increased usage of the driveway by large vehicles accessing Mr Lovatts farm, causing pot holes. Further use of our driveway in this way will lead to continuous damage. We are concerned as to how access will be reached if a new slurry lagoon is going to be installed, We do not want our driveway to be used as access to the lagoon.
