Submission: Objection
Comments: Having received the planning information regarding the proposed decking area at the rear of 1,High Lane we would object to the decking proposal on the grounds that the area would mean our garden would be overlooked due to the greatly increased height of the decking area.

We have however discussed the proposal with them and agreed that we would not object if the decking level was dropped minimum of 600mm lower than detailed on the proposed plans and introduced steps to drop from the patio doors to the decking area.

Should you require any further discussion please do not hesitate to contact me on the attached details
