Dear Sir/Madam

Planning Application.
Mission Church, Tompkin Rd Stanley.

I have no wish to oppose the above application but wish to express my concern at one area of the proposal, namely the question of on road parking.

Although provision is made for two parking spaces at the rear of the property, I consider this inadequate given that many homes now have two or more cars. This makes no provision for either short or long term visitors. It is therefore highly likely to result in some on road parking. From a personal point of view such parking would make it impossible to access or exit my property.

Users of Tompkin Road will be aware of the existing traffic problems in the vicinity of the Travellers Rest. Villagers have recognised and tolerated these problems, not wishing to impact on the pubs livelihood. The potential for additional parked vehicles can only aggravate this problem and I would ask the committee to consider the need for added off road parking.

Yours faithfully.
