Dear Sir/Madam

Re: SMD/2016/0490 Hillcrest House
Hill Top

I would like to object most strongly to the above application.

The proposed access through the Top Pub car park would make it very dangerous for cars and people using the main road. The road is very narrow, no footpath, and close to a bend and junction, obscuring the view of people approaching and leaving the car park. There has been a number of accidents on this junction, and this plan would limit the use of the car park for people visiting the pub.

Before Mrs Haddon purchased Hillcrest it was a private dwelling and the land in question was always well maintained.

Hillcrest is now a holiday let accommodating quite a number of people plus pens for animals. This has created a lot of additional noise in the area. There has also been a large wooden structure with flashing lights erected which causes a visual impact on surrounding properties

Any further development on this land would be very detrimental to the environment and local community

Yours faithfully
