Dear Sir,

Re letter received for planning application number SMD/2018/0101 received Wednesday 21 March 2018 which was dated 14 March 2018.

As a resident of Hencroft, I do not have a problem with the extension over the existing garage however looking at the building in its current state it looks like the brickwork is already set up for the extension so it seems to me that the planning permision is already a foregone conclusion!

My concern about the increased number of properties in this area is the speed at which the vechicles approach Hencroft from Badgers Rise/Sett, I think that a speed ramp should be put into place to slow the traffic down on the bend as I have seen many near misses of pedestrians crossing to go into the park or town and collisions of vehicles that are reversing to park onto their drives on Hencroft.

Many thanks. I shall look forward to your reply with your comments.

Yours faithfully,

Owner / Occupier Hencroft Leek.
