Details

This terminal protects the insulation of the chimney and provides an unrestricted discharge of flue gases into the atmosphere. This cowl can be used with oil or solid fuel fired installations and supplied with a locking band.

Features

10 Year Warranty
Only 60mm clearance required from combustables
Supplied with a FREE locking band
Quick and easy to install (designed with the installer in mind)
Fully welded and insulated with high density rockwool
CE and Hetas Approved
No thermal bridges, insulation continuity throughout the flue system
All components individually boxed
