Dear Ms Curley

Moneystone Park – Planning reference: SMD/2016/0378

I write to support the proposed Moneystone Park development because I believe that it will provide a significant, long-term boost to the local economy.

By bringing visitors to this area, Moneystone Park will not only create new jobs on site but will also help to support off-site jobs too. It is reasonable to expect that a development of this type will have a positive impact on local businesses through the supply chain and use of local service providers. Furthermore, other attractions, shops, restaurants, tea rooms and bars in the Staffordshire Moorlands will surely benefit from increased visitor numbers.

I started Cottage Delight in 1974. We now employ around 150 people locally and have over 700 speciality food products, either made by us here in the Staffordshire Moorlands or sourced from independent suppliers elsewhere in the UK. As a long-established, local company, we wholeheartedly welcome Moneystone Park.

Yours sincerely

Nigel Cope
