The development does not have any visionary impact on any property. The properties at Whirley Low and those at the crossroads have no sighting of it from any angle.

It is much needed injection to a struggling housing market,it is a small, sympathetic site, the homes will be sold at least 20% below the market value to. first time buyers.

Due to its locatation it will not cause any traffic issues, or parking infringements.

What it will do is bring footfall and fiance to the economy.
