## *STATEMENT OF SIGNIFICANCE & IMPACT:* ASSESSMENT TABLE

| **Proposed Works (*item by item*):** | Significance of the historic fabric/area that will be affected: | The impact of the proposed work(s) on the historic fabric/area: |
|---|---|---|
| Single storey extension to the rear of the building. | The property, though unlisted, is sited within the northern part of the Endon conservation area. Brook lane and the road known as the Village contain the oldest cottages in Endon village. The Old Smithy and the adjoining cottage with low stone walled front gardens are good examples of 17th & 18th century local architecture. The history of the cottages is unknown, although they appear to have been extended and altered over the years.<br>The proposed extension will further extend recent 1970's alterations. | Strip foundations (600mm wide x 1000mm deep) are proposed for the extension.<br>The new masonry will bond with existing masonry that appears to be part of a recent extension added in 1970's. The neighbouring property was extended several years ago, and the site for the proposed extension has a drainage run with patio finish over, so the ground in this area is assumed to have been recently disturbed. |
