2/10/18

Dear Mrs Jackson,

SMD/2018/0575 Land off Main Road owned by Mr Willard.

I want to register my objection to this application for a change of use on the grounds that it is unsustainable.

It is speculative and the environmental issues have not been addressed sufficiently regarding use of chemical toilets for so many people. It is not satisfactory to say toilets and washing facilities will be built if the first stage is successful. The health and safety issues needed to be addressed before undertaking the project.

I object on the grounds of unsustainablity.

Yours sincerely,

Mr. C Walkman
