Dear Mrs Jackson,

SMD/2018/0575 Mr Willard
Land off Main Road, Hollington Staffs ST10 4HX

I want to register my objection to the change of use application on Main Road.

The number of tourists will cause a lot of noise which could run into the night as holidaymakers have barbeque parties etc.

The village is reduced to one bus per week so visitors will have to use their cars for shopping and visiting tourist places around the area. It is unlikely they will want to walk and cycle everywhere.

We are all on septic tanks in this area and know the problems that they cause with one family without tourists of up to 60 plus. The disposal of waste with waste collection is even worse especially in the hot weather we have had recently. There is an environmental issue.

I cannot support this application because it is speculative and unsustainable.

Yours sincerely,

G Evans
