Dear Miss Jackson,
I am objecting to the following application -
SMD/2018/0575 Mr Willard - Land off Main Road, Hollington Staffs ST10 4HX

I live on the opposite side of the road from the proposed plan and do not want the view of tents and shepherd huts. The noise factors also concerns me if there are going to be 60 plus adults and children camping there. It is speculative and not thought out regarding the impact on neighbours.

The roads are dangerous and not suitable for family walkers or cyclists. The site is remote from pubs, restaurants, shops etc without using cars because there is no public transport. There are no footpaths for walkers and this is especially dangerous when it is dark. It is wrong to assume that visitors will only use bikes or walk during their stays.

There have been other Hollington planning applications rejected in the last few months on the grounds of unsustainability even though they are existing businesses. This business is speculative and unsustainable due to the fact that tourists will need their cars for shopping and getting to local tourist attractions.

Yours sincerely,

Miss J Evans
