Comments: My Concerns are for the stability of the bank that this ground supports naturally and if it is dug out what effect it could have on the property's in my neighbourhood the boundaries could be undermined. Also as a local resident the effect on moving large amounts of sand and it on a bank side adjoining the access road Back Lane if not done correctly ? Leek as had its problems with retaining walls mill street and Rock villa next to it built a retaining wall which had to be rebuilt due to cracks ? Also I can confirm that there is wild life on the bank side Badgers , rabbits , foxes etc over the years and was prior to the start of this year still present
