To whom it may concern
I wish to object to the proposed development, I live opposite the property, Firstly I believe the fence in its current location is erected too high (over 2 metres),we have young children that live in the neighbourhood and they often play in the street opposite this fence there is a safety issue with the height blocking the view of motorists driving around the corner in its current position Secondly there used to be a patch of grass that ran alongside the footpath, for as long as we have lived here (12 years) we have always believed it to be "common" land Mr Card and his partner have placed the fence right alongside the footpath therefore claiming the " common" land as part of their property, before they moved into the property and made the alterations the original fence line was approximately 1.5 metres back from the footpath, if the fence line was returned to its original location this would greatly improve visibility for motorists driving down the road and make it a lot safer for our children to play in the street
