
FAO - Ben Hurst, Planning Officer, Leek Moorlands Council

Comments – Planning application SMD/2019/0027.

07/02/19

I am a cyclist/ walker who regularly uses the main Cheadle to Tean road. I have been concerned for some time about the volume of traffic along this narrow road. The potential addition of further traffic from the vehicles of the residents of the proposed housing estate, Mobberley farm is of further concern. I have previously contacted the Highways Department of Staffordshire County Council re possible road widening which I believe is warranted from Mobberley bridge onwards to the disused Crown pub. I was advised that at present no road widening is planned but that the Highways Department of Staffs County Council do own land along this road which may be used if road widening was undertaken.

I was told by the Highways Department of Staffs County council that they own the land that adjoins number 2, the Cottages, Smithy lane. The site plan for the above planning application does not seem to identify this land owned by the Highways Department. In addition, it is my understanding that Smithy Lane is a bridleway.

I do not wish my personal data to be uploaded onto the internet.
