Submission: Objection
Comments: Current car park at front of building nearly full when holding weekly evening activities football and dog training. There would not spare capacity for proposed development it will force cars to park on road or rear of building.

There would be no segregation between horses and children on car park

Foot access via unlighted road and no pavement in winter months causing unnecessary danger

If livestock was reintroduced to land there would be no agricultural building o house them.

Proposed hedge row screening would give no benefits to residents

Seven Trent water has not yet confirmed they are aware there is a private water supply adjacent to building regarding septic tank soak away and possible contamination.
