James

This variation of condition application relates to a proposed minor amendment to the south-west edge of the application site along its boundary with the host property. No issues relating to impact on existing trees/hedges or on the approved landscaping scheme would arise.

I have no objection to the variation of condition application.

Temporary tree protection measures during construction, together with implementation and subsequent establishment maintenance of the approved landscaping scheme, are already provided for by appropriate conditions of the outline planning permission SMD/2018/0017 and approval of reserved matters SMD/2019/0007, and do not need adding to or amending in the event that the variation of condition application is approved.
