Submission: Objection
Comments: I would like to object to the plans submitted for 60, Meigh Road. Has recent plans effect me in the same way as the original plans.

The ground level to my property is at least 1metre lower than 60 Meigh Rd, the proposed plans show the roof of no. 60 will be going from the front to rear of the property therefore this is more like a three storey property. The ground floor has been extended previously and adding another storey plus roof will block out a considerable amount of natural light to the rear and side of my property. The plan to include a side window directly opposite my bathroom window will have an effect on my privacy. The original plans stated it was to be a bedroom window whilst the new plans suggest it will be a games room window, whatever the room is used for has no bearing on my objection.

I have lived at no 62 for over 38 years and numerous plans have been submitted. No. 60 was extended by at least 30% in the 1980,s on the opposite side of the property. These plans will double the size of the original property and therefore will make a vast difference. The rear extension will go back to the extent of blocking half my garden and windows to the rear of my property. Please feel free to come and look at my property to give you some idea of how this will effect me.
