Submission: Neither
Comments: Not sure what is going on with this application there is already one application to amend 106 NMA/2019/0004 in the name of Michael Nolan of Keep Moat dated 25/2/2019.

We now have another application to amend 106 SMD 2019/0310 dated 29/4/2019 by Mr Rowe private individual (owner of land in planning application)

this appears the same has NMA/2019/0004 why the need to put another application in when the first has not had a decision and by a different person

These applications seem a total mystery to the general public
