I am writing with reference to the above planning application numbers to express views in which i feel that the plans may affect my business.

I have owned 23 Market Street for over 20 years and have been running a business from the premises. To deliver furniture to and from the premises I use the entrance from Silk Street, where the doors have been widened (which I was granted planning permission to complete) to be able to deliver large furniture items to be reupholstered. I have no other access that is appropriate for the items that I reupholster.

I am would like to express my views, that I would like to clarify how the access rights to the above planning applications do not impact on my business.

Kind Regards
Neil Edge
