Submission: Objection
Comments: The change of use from a 9 to 5 Monday to Friday operation to 24 hour 7 days a week will have a serious impact on our daily lives.

I cannot see how this application can proceed when there are so many other flats available in central leek with more mills still being converted. The proposed car parking area seems inadequate for the proposed number of flats. Fountain Street is already totally inadequate for its present usage.

Clarification is needed re the proposed plans. Floors 1 and 3 have a vast number of toilets proposed - is this correct? Also where is the access point to the proposed development re residents coming from their cars in the parking area? A new 8 foot fence is proposed on one side of the building why not one on the side of Cattle Market Cottage?

It appears that, as local residents, we have not been given the full facts re this proposed development. I might add that trying to find out further information has been impossible. On the 14th August I submitted a form (CFXX10CX) asking specific questions only to be told on the 21st August that the case officer was on holiday. I suggest that the deadline for the proposal be extended in order for additional information to be made available.
