Submission: Objection
Comments: The residents of The Pastures are becoming very angry and distrusting of both the agents, developers and Council regarding this planning application that has been on going for getting on to 11 months,

We only happened to stumble across this Discharge of Conditions application by chance and after reading the land survey our concerns are even greater then before,

How on earth this application can get this far, let alone take this long Is beyond comprehension.

A new full and open public consultation is requested with truthful facts presented by the agents, developer and planning officers to end all thes cloak and dagger, backhanded deals we the people of Cheadle are seeing right now.
