27th November 2019

Dear Mr Swithenbank

Planning Application SMD/2019/0666

Replacement of defective pre-stressed concrete bridge with steel bridge with existing service tray and concrete abutments to remain.

The above matter was discussed at the recent meeting of the Parish Council. The council does not have any objections to the application on the assumption that the appearance of the replacement is like the original. It was observed that from the information provided it was difficult to determine the exact location and the nature of the works.

Yours sincerely

A.W. Howard
Clerk to Tittesworth Parish Council
